

1 Construct

AP-free set in $\mathbb{F}_5^2$

2 Verify

For any three distinct
selected points x, y, z

$$x + z \neq 2y$$

coordinate-wise, modulo 5

Valid points: 5

3 Score

Reference: 6 points

Relative quality

$$\frac{5}{6} \approx 0.833$$

Invalid construction $\rightarrow 0$
